KODIAK STEEL LLC.  
63472 W. COAL MINE AVE STE 1010  
LITTLETON, CO 80123  
720-328-2625

**Kodiak Steel LLC.** Manufactures steel landscape edging for residential and commercial installation. Steel edging is available in powder coated rolled edge, galvanized rolled edge and raw rolled edge.

## Uses

Use steel landscape edging as a clean line to separate decomposed granite from your sidewalk, or grass from your paver stones within your landscape. Steel landscape edging can also be used as a form for pouring concrete.

## Sturdiness Over Time and Weather

Kodiak steel landscape edging is durable in any weather. Being made of steel it will not bend, crack or rot easily in the heat, sun, snow or frozen ground. It can withstand any maintenance machines coming close to do mowing or trimming of any kind. Kodiak steel landscape edging is the choice professionals use.

## Eco Friendly

Kodiak Steel is a green company that does not put any toxins into the air or earth. We use only recycled steel in our landscape edging.

## Sizes/ Finishes

### GALVANIZED ROLLED TOP
